PROFESSIONAL SUMMARY

DevOps Engineer with 1 year of hands-on software experience in enterprise release management, Azure cloud operations, CI/CD, Kubernetes (AKS), Docker, production support, deployment validation, and Infrastructure as Code. Supported an enterprise financial transaction platform across 6 client environments, with experience validating Azure DevOps releases, monitoring Azure and AKS workloads, troubleshooting deployment issues, and maintaining release documentation. Skilled in Microsoft Azure, Azure DevOps, Kubernetes, Docker, Terraform, ARM Templates, Azure Monitor, Microsoft Entra ID, RBAC, Git, PowerShell, Python, and PostgreSQL. Microsoft Certified: Azure Fundamentals (AZ-900) and Professional Certification Program – Cloud Architect completed with Distinction.

CORE SKILLS

Cloud & Azure: Microsoft Azure | Azure Virtual Machines | Azure Storage | Azure Networking | Azure Kubernetes Service (AKS)

DevOps & CI/CD: Azure DevOps | Azure DevOps Pipelines | Git | GitHub | GitHub Actions | YAML | CI/CD | Release Management

Containers & Kubernetes: Docker | Kubernetes | Helm | Kubernetes Services | Ingress | ConfigMaps | Secrets | Health Probes | Rolling Updates | HPA | kubectl

IaC & Automation: Terraform | Terraform Modules | ARM Templates | Infrastructure as Code | PowerShell

Networking, IAM & Operations: Azure VNet | VNet Peering | Microsoft Entra ID | RBAC | NSGs | Private Endpoints | Azure Monitor | Production Support | Incident Troubleshooting

Programming & Databases: Python | Flask | REST APIs | PostgreSQL | MySQL

PROFESSIONAL EXPERIENCE

Global Software Solution (TVL) Pvt Ltd. — DevOps Engineer (Release Management)

Tirunelveli, Tamil Nadu | Dec 2024 – Jul 2025

• Managed and coordinated end-to-end CI/CD release deployments for the NPSS financial transaction platform across 6 enterprise client environments.

• Supported Azure and Azure Kubernetes Service (AKS) workloads through deployment validation, pod health checks, application health checks, and production troubleshooting.

• Validated Azure DevOps build artifacts, build IDs, PostgreSQL database scripts, and release quality before production deployments.

• Monitored Azure infrastructure and AKS workloads using Azure Monitor to support application availability and operational stability.

• Troubleshot deployment and production issues by analyzing Kubernetes pod status, application errors, logs, and infrastructure conditions.

• Collaborated with Development, QA, and Business teams to coordinate releases, resolve deployment issues, and support successful production releases.

• Maintained deployment runbooks, SOPs, release documentation, release trackers, and Azure DevOps dashboards to standardize operational processes.

Inmakes Infotech Pvt. Ltd. — Python Full Stack Developer Intern

Kochi, Kerala | Jul 2023 – Sep 2023

• Developed backend modules using Python/Django and REST APIs, with CRUD operations using MySQL and PostgreSQL.

• Collaborated in an Agile environment to deliver incremental application features using HTML/CSS and backend technologies.

SELECTED CLOUD & DEVOPS PROJECTS

Kubernetes Microservices Deployment

Technologies: Kubernetes | Docker | Helm | PostgreSQL | YAML | GitHub Actions

• Deployed a containerized Flask backend and PostgreSQL application using Kubernetes.

• Configured Kubernetes Services, Ingress, ConfigMaps, Secrets, RBAC, health probes, rolling updates, and Horizontal Pod Autoscaling (HPA).

• Validated deployments, service connectivity, pod health, and Kubernetes resources using kubectl.

DevOps Infrastructure Automation with Terraform & Docker

Technologies: Terraform | Docker | Python | Flask | PostgreSQL | Nginx | GitHub Actions | CI/CD

• Built modular Terraform IaC for multi-container Dev/Prod environments with reusable networking, PostgreSQL, Flask, and Nginx modules.

• Added GitHub Actions validation for Terraform formatting and configuration checks.

• Validated infrastructure using Terraform plan, Docker networking, and application health checks.

Azure Network Security & Access Management | Simplilearn

Technologies: Microsoft Azure | VNet Peering | Microsoft Entra ID | RBAC | Virtual Machines

• Designed a 3-VNet Azure environment using VNet Peering for secure cross-network communication.

• Implemented 5+ custom RBAC assignments following least-privilege principles and configured Entra ID access controls.

Azure Infrastructure Deployment & Administration | Simplilearn

Technologies: Azure Virtual Machines | Virtual Networks | VNet Peering | Azure Administration

• Provisioned 4 Azure VMs across multiple VNets and Resource Groups and configured VNet Peering across 3 virtual networks.

• Performed connectivity testing, infrastructure validation, and troubleshooting.

Infrastructure Automation Using ARM Templates | Simplilearn

Technologies: ARM Templates | Azure Virtual Machines | Azure Storage Accounts | Private Endpoints | IaC

• Authored 5+ modular ARM Templates to automate Azure VM, Storage Account, and Private Endpoint provisioning across 2+ environments.

• Standardized IaC deployment workflows to reduce repetitive manual provisioning steps.

AWS Cloud Architecture - Online Doctor's Clinic Application | Simplilearn

Technologies: AWS | S3 | CloudFront | IAM

• Designed a cloud-based web application using S3, CloudFront, and IAM, applying security, availability, scalability, and content-delivery principles.

CERTIFICATIONS

• Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft | 2026

• Microsoft Applied Skills: Generate Reports with AI Research Agents | Microsoft | Jul 2026

• Professional Certification Program – Cloud Architect (Completed with Distinction) | Simplilearn | May 2026

• Python Full Stack Developer Certification | Inmakes Infotech Pvt. Ltd | 2023

Currently Preparing: Microsoft Azure Administrator (AZ-104)

EDUCATION

Bachelor of Arts in English Literature | Sadakathullah Appa College, Manonmaniam Sundaranar University

Aug 2020 – May 2023 | CGPA: 7/10
